

We are excited about the opportunity to expand our continuing education seminars to tax professionals in Alabama. Our seminars are designed to keep you current while providing more in-depth understanding of tax laws and regulations.

Professional Tax Institutes, Inc. has provided continuing education for over 37 years in locations throughout the US. Our instructors consist of 3 Enrolled Agents and a CPA with over 120 years of combined experience. They work with the same day-to-day issues as you and understand the challenges you face in your practice.

In 2016, we have an exciting slate of seminars we'll be presenting. Two of the seminars that are favorites to everyone are the IRS update and New Developments, where we'll talk about identity theft, audit trends, new laws that impact tax preparers, and more. Other seminar topics center around:

- S-corp Entity and Shareholder Issues
- Small Business Issues
- Amended Returns
- Individual Taxpayer Issues
- Retirement Plans
- Trusts
- Agricultural Issues
- Wealth Accumulation and Preservation
- Ethics
- Noteworthy Rulings and Cases

We look forward to meeting you in either Huntsville – October 27/28 or Mobile – December 8/9 and having you as part of our continuing education seminars. You can learn more about us at www.ptitax.com.

Best regards from your Instructors,

Randy, Paul, Dick and Steve
